“THE ANSSEMS KLT IS EXACTLY WHAT I WAS LOOKING FOR”

KLT tipper, a reliable workhorse

These budget friendly, backwards tipper trailers benefit from a low unladen weight meaning they can be used for many applications. The tipping function is operated manually from the A-frame position. The wheel position under the loading floor gives the Anssems KLT a large load area which is easily accessible with the side- and rear panel lowered. All KLT models come as standard with multiple tie down points to help keep your load secure.

Durable and low weight

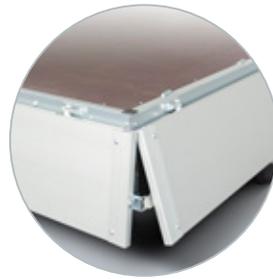

The manufacture of the KLT chassis is extremely accurate using state of the art CNC laser cut and robot welded profiles. All parts of the chassis are fully galvanized. The strong loading floor is made of high grip waterproof plywood which is supported by heavy duty galvanised steel cross members. Thanks to the smart design the KTL range maintains maximum load capacity.

A-frame tubes extend to the rear

Reliable and clear lightings

Easily accessible loading floor

Sides easy to open and close

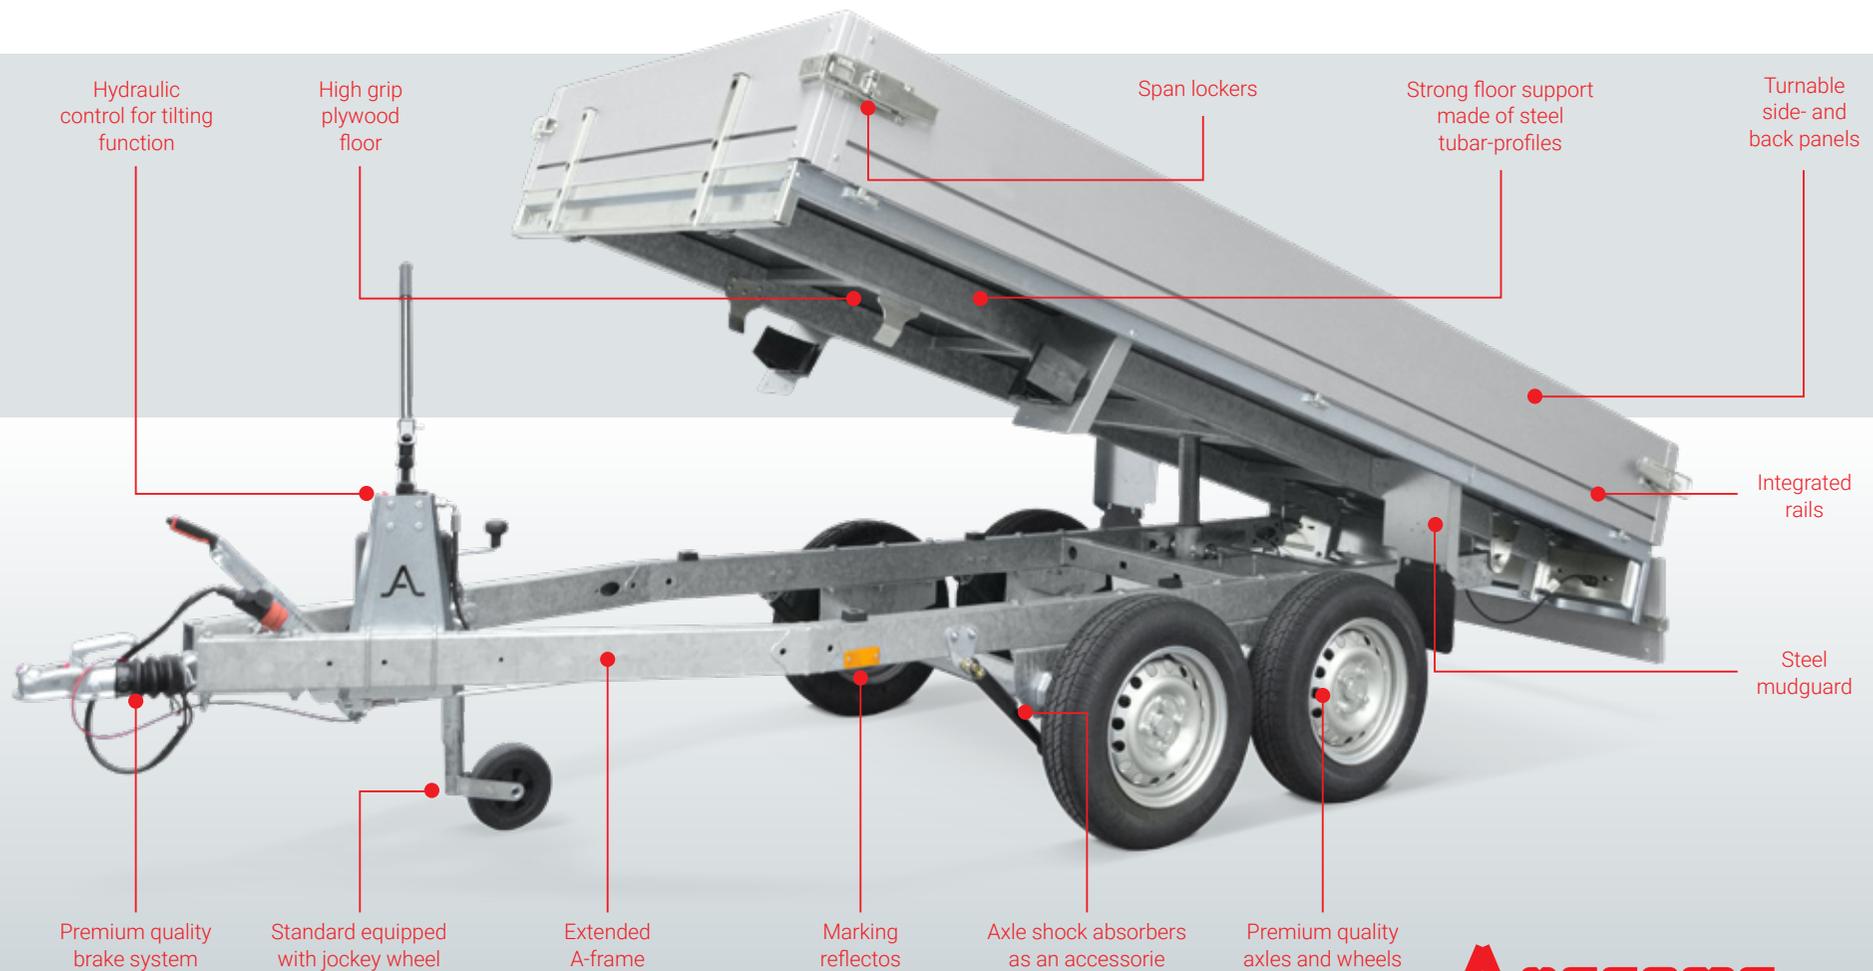

Hydraulic tipping system

Tie rail for movable net- and tie hooks

8 Tie hooks on the edge of the loading floor

Hydraulic control for tilting function

High grip plywood floor

Span lockers

Strong floor support made of steel tubar-profiles

Turnable side- and back panels

Integrated rails

Steel mudguard

Premium quality brake system

Standard equipped with jockey wheel

Extended A-frame

Marking reflectos

Axle shock absorbers as an accessorie

Premium quality axles and wheels

Multiple possibilities

The KLT tippers offer great performance. You can increase the performance and usability by mounting the KLT accessories. Ansems offer plenty of optional extras within the KLT range. Create the tipper that will meet all your requirements.

“THE EXTENDED PANELS ARE MY NUMBER ONE ACCESSORIES”

The ladder rack is the number one KLT accessory. It offers more mounting options and increases load protection.

The 30 cm extension sides create a total loading height of no less than 60 cm. The flat cover is easy to assemble, also in combination with the extension sides.

Accessorie:
axle shock absorbers for
extra driving comfort

Accessorie:
spare wheel

Accessorie:
spare wheel support

Accessorie:
net hooks
